PROPOSED SHUTDOWN OF ELEMENTS FOR 114th OCCM- BAR CHART

SN	Name of Element	October'2015																							November'2015																					Time	Purpose
		8	9	10	11	12	13	14	15	16	17	18	19	20	21	22	23	24	25	26	27	28	29	30	31	1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20	21		
1.TRANSMISSION LINES																																																
1	132KV Loktak-Imphal-II																																														7:00 to 15:00 Hr	For Annual Maintenance Program
2	400KV Ranganadi-Balipara-II																																														7:00 to 16:00 Hr	For completion of LILO at Biswanath Ch'li S/s
3	400KV Ranganadi-Balipara-I																																														7:00 to 16:00 Hr	For completion of LILO at Biswanath Ch'li S/s
4	400KV Byrnihat-Bongaigaon(NETC)																																														7:00 to 15:00 Hr	For clearing of trees in Rani Reserve Forest inclining towards line from either side & posing potential threat.
5	400KV Silchar-Azara(NETC)																																														7:00 to 15:00 Hr	For clearing of trees in Rani Reserve Forest inclining towards line from either side & posing potential threat.
6	132KV Silchar-PK Bari-I																																														7:00 to 15:00 Hr	For completion of balance construction related works which could not be completed due to acute ROW issues
7	132KV Silchar-PK Bari-II																																														7:00 to 15:00 Hr	For completion of balance construction related works which could not be completed due to acute ROW issues
8	220KV Misa-Dimapur-I																																														7:00 to 15:00 Hr	Checking & enabling of CB operation, isolator remote operation & other functions under RTAMC
9	220KV Misa-Kopili-III																																														7:00 to 15:00 Hr	Checking & enabling of CB operation, isolator remote operation & other functions under RTAMC
10	132KV Khandong-Khliehriat-I																																														7:00 to 15:00 Hr	Checking & enabling of CB operation, isolator remote operation & other functions under RTAMC
11	132KV Khandong-Khliehriat-II																																														7:00 to 15:00 Hr	Checking & enabling of CB operation, isolator remote operation & other functions under RTAMC
2. SUBSTATION																																																
400/220KV Balipara Substation																																																
1	400KV Ranganadi#II-Misa#II Tie Bay																																														7:00 to 15:00 Hr	Annual Maintenance Program. Feeder remains in service
2	400KV Misa-I Main Bay																																														7:00 to 15:00 Hr	Annual Maintenance Program. Feeder remains in service
3	400KV Bongaigaon-I Main Bay																																														7:00 to 15:00 Hr	Annual Maintenance Program. Feeder remains in service
4	400KV Misa-II Main Bay																																														7:00 to 15:00 Hr	Annual Maintenance Program. Feeder remains in service
5	220KV(LV) Bay of 400/220KV ICT																																														7:00 to 15:00 Hr	Annual Maintenance Program. ICT remains in service thro' Bus Coupler
6	132KV Bus Coupler																																														7:00 to 15:00 Hr	Annual Maintenance Program. No outage of any feeder
400/220KV Bongaigaon Substation																																																
1	400/220KV, 315MVA ICT																																														10:00 to 10:45 Hr	For switchover among units
2	400KV, 80MVAR Bus Reactor-IV																																														7:00 to 15:00 Hr	For tan delta at variable frequency/ AMP of CB
400/220KV Misa Substation																																																
1	400/220KV ICT-I-Balipara-II Tie Bay																																														7:00 to 15:00 Hr	Annual Maintenance Program. No outage of any feeder
400kV Silchar SS																																																
2	400kV, 200MVA ICT-II																																														10:00 to 12:00 Hr	For refitting of corona rings
3	400kV, 63MVAR Bus Reactor-I																																														10:00 to 12:00 Hr	Testing remote operation of Isolators
	AEGCL																																															
1	132kV Panchgram-Srikona line																																														09:00 to 16:00 Hr	Pre-Puja maintenance works of line
2	132kV Srikona-Pailapool line																																														09:00 to 17:00 Hr	Pre-Puja maintenance works of line
3	220kV Kathalguri-Tinsukia line (I&II)																																														10:00 to 12:00 Hr	Commissioning of new 220v battery bank with charger at 220kV control room, AEGCL, Tinsukia.
	TSECL																																															
1	132kV Mission Tilla-PK Bari Line																																														09:00 to15:00 Hr	Pre-Puja Maintenance work (Daytime shutdown)
